Comments

The applicant agrees to comply with all comments listed above and attached to this permit. The applicant is responsible for all utility locates and traffic control. The applicant has twenty one (21) calendar days from the commencement of work to complete all required restoration. The deposit will be held for a minimum of sixty (60) calendar day after the work has been completed. The applicant is responsible to notify the township for the initial inspection after work has been completed along with the follow up inspection after the sixty (60) day period. Any works completed after November 15 must be reviewed by the township after April 15 of the following year before the deposit is released. An inspection will be done one (1) year after completion to ensure work is to the Township's standard. In the event repairs are required, an appropriate invoice will be sent to the applicant.
