

## **Township of Wellesley 2019 Year End Accessibility Status Report**

### **Sidewalk Replacement**

445 metres of 1.5-metre-wide sidewalk with detectable warning plates were replaced and 250m of new sidewalk with detectable warning plates were installed in 2019.

#### **St. Clements**

- Lobsinger Line (removed and replaced)

#### **Wellesley**

- David Street (new)
  - End of existing sidewalk on David Street to Lawrence Street – 183m
- Doering Street (removed and replaced)
  - David Street to Nafziger Road – 111m
- Queen's Bush W (removed and replaced)
  - Water Street to Nafziger Road 194m
  - 1340 Queen's Bush Road West to end of existing sidewalk – 140m

### **Multi-use trails**

600 metres of existing multi-use trails were hard surfaced with asphalt complete with detectable warning plates.

### **Fire Department**

The new fire station in St. Clements has been completed and is in service.

Accessibility features include:

- Accessible dedicated parking spots
- Curb cuts – interior and exterior
- Push button door access exterior and interior doors
- Universal fire exit signage
- Smoke and CO alarms with audible and strobe warning capability
- Universal barrier free washroom
- Furniture in training/meeting room is portable and stackable, easily moved and repositioned
- All public access in on one floor

### **Recreation**

The first phase of Erbhaven Trails was completed, with a portion of the trail system accessible with hard packed stone dust with very little grade involved in that area of the trail.

The men's washrooms in Wellesley Arena were retrofitted to include an upgraded accessible washroom facility.
