## Building Communities

The Township of Wellesley was successful in an application for an Ontario Trillium Foundation (OTF) grant. The application was submitted for the replacement of four heating, ventilation and air conditioning (HVAC) units at the Linwood Community Centre, the HVAC unit at the St. Clements Community Centre, and a new dehumidifier for the St. Clements Arena in addition to the new dehumidifier installed in St. Clements in 2017.

The Administration Office re-opened at 8:30 a.m. on Tuesday, February 22 for in person services.

Thank you for your patience!

## Message From The Director of Public Works

With January and February behind us we can now look back and reflect on what was a record month for weather, at least in recent years. January saw the coldest average temperature for the month since 2014, and the most snow fall recorded since 2008. Couple that with the ever present drifting in our rural areas and you can see how challenging it was. This kind of weather makes for some beautiful backyard skating rinks, but as you can imagine takes a toll on the people who are tasked with cleaning up after it. The Public Works office received very few complaints of slippery conditions or areas that needed extra attention including on sidewalks. This is only possible through a combination of dedicated Township staff, the cooperation of our great residents and support of our local contractors. It may not have been perfect, especially with the global pandemic to contend with, but we managed through the challenges.

Thank you to all of our dedicated staff and residents for your efforts. They have not gone unnoticed!
